\$5000 Decals

About a month ago, someone on one of the boards posted a link to a European Ebay auction where someone purchased a CMC Mercedes Benz W196 Training "T" car for 5000 Euros.

Now these cars are rare.... they only made 196 of them, but 5000 Euros ? Give me a break !

So I picked up an unliveried W196, made the decals and saved a lot of money. LOL

Here are some pictures..... what do you think ?
